Subject: RE: Meeting request on PFAS

Thanks. On Friday February 12th I was on a panel with ACC (Robert Simon) regarding PFAS pesticide containers. It is possible that they want to provide information about their plan for investigating and addressing PFAS in containers generally. The session was attended by about 200 industry representatives sponsored by RISE.

'Robert J. Simon, Jr. ' <robert_simon@americanchemistry.com>

Subject: FW: Meeting request on PFAS

FYI – ACC added me to this because in my past job, I did “all things PFAS at EPA”. Avi suggested we schedule it and be in listening mode only. I’m not sure whether he plans to pull in the other program offices but am leaving it up to him to figure that out.

Subject: Meeting request on PFAS

Avi, Michal:

I hope your first month at the agency has gone well. On behalf of the American Chemistry Council, I'd like to request a meeting to discuss PFAS. The purpose of the meeting is to introduce you to the ACC PFAS team, discuss the current

status of the EPA's PFAS Action Plan, update you on the industry's progress in this area and explore ways we can assist the agency as it maps out its regulatory agenda for these chemistries.

Participants on our end would be the ACC's staff leadership and technical experts on PFAS. Our goal here is for ACC to be a constructive partner with the EPA on all things PFAS and to provide you with any data, analysis or input that you need.

Thanks in advance for your consideration.
